

HyExtra (Hytale Raiders project GDD)

GDD Legend:

“ ?* ” - *Will be brought up for discussion.*

“ !! ” - Approved.

“ !* ” - under development

MVP - Minimum Valuable Product

MVP+ - Right after MVP

NTH - Nice To Have

P - Prototype

Genre: PvE Extraction (+PvPvE) !!

Style: Fantasy (Hytale) !!

Session: ~15–25 minutes

Main player objective: Extract as many resources as possible from the zone, level up, and defeat Crimson ?* .

1 Core Idea:

Players enter a corrupted region, gather resources, rescue survivors and attempt to destroy Crimson Bosses before the infection overwhelms the map.

Runs last up to 25 minutes and escalate in difficulty.

Players must decide whether to extract safely or risk staying longer for greater rewards.

2 The main pillars on which the game is built: !!

Architecture Over RNG (map knowledge gives you advantage)

Biological Time Pressure (The World will pressure you itself)

The Economy of Greed (more time spend = more earned and more chance to die)

Long Term Progression (Every run pushes the player closer to overcoming the Crimson)

Rule: a feature must support at least 1–2 pillars; if not, it's out.

3 FULL GAMEPLAY LOOP [link](#) ?*

4. MAP DESIGN: !*

Layout:

General Information:

A hand-crafted map with four locations of unique identity and boss locations.

Map size:

Probably a maximum of 1000x1000 blocks *!! - Parade's Approval.*

Spawn Points: *!!*

There are 12 spawn points on the map

Regions:

1ST AREA

Mob	Count	Crimson Stage	Why this mob fits
Zombie	2–3	0–5 min	Common, slow, predictable — good first enemy
Skeleton	2–3	0–5 min	Introduces ranged combat early
Cave Spider	1–2	5–10 min	Faster threat, teaches dodging

- Hub Island

Ravine Region

- Ravine camp

Enemies:

Skeleton, Zombie, Cave Spider

- Surface Camp
- Cavern Dungeon

Shoreline

- Sacred Monument

Destroyed Village Region

- Desolate Farm

Enemies:

Zombie

5. CRIMSON ESCALATION SYSTEM AND TIMER

SYSTEM PHILOSOPHY

Crimson is not just a timer. It is a living organism that slowly grows throughout the game day cycle, closer to nighttime. Each stage should feel like a natural escalation of threat, where the player senses the approaching danger through visual, audio, and gameplay changes long before they see the numbers on the timer. The key principle is that the player should understand the current stage without the UI. Fog, sounds, mob behavior, and lighting tell the story better than any indicator.

TIMER:

One run can last a maximum of 25 minutes, after which the player inevitably dies from the concentration of spores in the air.

0–5 min (day): spread rate ~10% — calm gameplay

Training and looting. The world is safe.

Visual: Light haze on the ground in places of Crimson (height 1 block). Visibility 100%.

Sound: Normal Hytale sound.

Mobs: Only basic tier.

- Spawn: rare, tied to points of interest (POI).

Gameplay: The player only spends stamina on parkour, running, fight against a small number of mobs. Calm resource gathering.

5–10 min: ~30% — more mobs, weak loot growth from mobs

Pressure begins. Risk/Reward appears.

Visual: Fog rises to waist level (2-3 blocks high). Overall visibility drops by 30%. Lighting dims (transition to twilight).

Sound:

Mobs:

Medium-level mobs added:

- Spored version of **Skeleton**.
- Hp increased by 25%

- Attack speed increased by 25%
- Now cannot block attacks

Aggro radius increased by 25% .

Spawn: Medium, patrols appear between POIs.

Gameplay: In areas of spore activity . Access to medium loot in dangerous areas is unlocked.

10–15 min: ~45% — stronger mobs, noticeable visuals, more loot and loot blossoms

Visual: Fog reaches chest level (4-5 blocks). Visibility drops by 50%. Sky turns deep orange-red. Crimson growths on surfaces begin pulsing with faint red light.

Sound: Low ambient drone begins. Distant growling of elite mobs audible. Normal Hytale ambient music replaced by tense underscore.

Mobs:

Elite Mobs added

- Rooterman
- Loot Flower

A stationary ground mob that looks like a large closed flower containing loot; when destroyed, it opens up and drops the loot

Can drop:

Thorium Ore (100% if not Cobalt, 5-8)

Cobalt Ore (100% if not Thorium, 5-8)

Plant Fiber (100% 1-3)

Basic mobs gain additional HP buff (+15%).

Gameplay: Loot Flowers appear in dangerous areas. Ore clusters in deep zones become accessible but guarded. First real extraction decision point — enough loot to go back, or push for T2 materials.

15–18 min: ~70% — elite enemies, dangerous zones

Visual: Fog full height (6-7 blocks). Visibility 7 blocks in crimson.

18–20+ min: crit

6 EXTRACTION SYSTEM

Extraction Point: Single interactable object (portal / terminal) placed on the map.

Activation: Player interacts with it → 30-second countdown begins. During countdown: Player must stay alive and near the point. If they die — extraction fails, run ends as death. On completion: Player successfully extracts with all carried loot.

MVP+: On activation, nearby mobs aggro to the extraction point for the duration of the countdown — creates a defend-the-point moment organically.

7 PROGRESSION SYSTEM

MATERIALS

Every material type must tell the player WHERE it came from and HOW dangerous it was to get.

BLACKSMITH

All materials are gathered during runs and brought back to the hub stash. The blacksmith trades items in exchange for materials.

The three material tiers map directly to the Crimson Escalation timer:

T1 (Safe Zone) → 0-10 min ^ surface chests, basic mob drops, ore nodes near spawn

T2 (Pressure) → 10-18 min ^ dangerous areas, elite mobs, deeper POIs

T3 (Crimson) → 18-25 min OR boss drops ^ Crimson cores, boss loot

Materials for craft:

Material	Source	Location	Tier
Iron Ore		Ore clusters	t1
Cobalt ore		“Loot Flowers”, Ore clusters	t2
Thorium ore		“Loot Flowers”, Ore clusters	t2
Adamantite ore		Elite Crimson mobs	T3 (crimson)
Bone Fragments		Skeleton Drop, Loot chests	T1
Light Hide		Animal drops, Loot Chests	T1
Rubble		Chest loot, collect Rubble	T1
Plant Fiber		Chest loot	T1
Stick		Near Trees	T1
Essence of Void		Bosses	T3

Weapons:

Type	Item name	Craft / Getting (Cost)	Tier
Dagger	Crude Daggers	Craft: 5 Rubble, 2 Stick, 3 Plant fiber	1
	Iron Daggers	Craft: 10 Iron ore, 3 Light hide	1
	Thorium Daggers	Craft: 12 Thorium ore, 4 Light hide	2
	Cobalt Daggers	Craft: 12 Cobalt ore, 4 Light hide	2
	Adamantite Daggers	Craft: 15 Adamantite ore, 5 Light hide, 1 Essence of Void	3
Sword	Crude Sword	Craft: 6 Rubble, 3 Stick, 2 Plant fiber	1
	Scrap Sword	Chests / Loot only	1
	Iron Sword	Craft: 15 Iron ore, 2 Stick, 4 Light hide	1
	Thorium Sword	Craft: 18 Thorium ore, 2 Stick, 5 Light hide	2

	Cobalt Sword	Craft: 18 Cobalt ore, 2 Stick, 5 Light hide	2
	Adamantite Sword	Craft: 22 Adamantite ore, 2 Stick, 2 Essence of Void	3
BattleAxe	Crude Battleaxe	Craft: 8 Rubble, 4 Stick, 3 Plant fiber	1
	Scrap Battleaxe	Chests / Loot only	1
	Iron Battleaxe	Craft: 20 Iron ore, 4 Stick, 5 Light hide	1
	Thorium Battleaxe	Craft: 24 Thorium ore, 4 Stick, 6 Light hide	2
	Cobalt Battleaxe	Craft: 24 Cobalt ore, 4 Stick, 6 Light hide	2
	Adamantite Battleaxe	Craft: 28 Adamantite ore, 4 Stick, 3 Essence of Void	3
Bow / Ranged	Crude Shortbow	Craft: 8 Stick, 6 Plant fiber	1
	Iron Shortbow	Craft: 10 Stick, 5 Iron ore, 4 Light hide	1
	Thorium Shortbow	Craft: 12 Stick, 8 Thorium ore, 6 Light hide	2
	Cobalt Shortbow	Craft: 12 Stick, 8 Cobalt ore, 6 Light hide	2

	Adamantite Shortbow	Craft: 15 Stick, 10 Adamantite ore, 2 Essence of Void	3
	Crude Arrow (x5)	Craft: 1 Stick, 1 Bone Fragment, 1 Plant fiber	1
	Iron Hand Crossbow	Craft: 15 Iron ore, 5 Stick, 5 Plant fiber	2
Mace	Crude Mace	Craft: 6 Rubble, 4 Stick, 2 Bone Fragments	1
	Iron Mace	Craft: 22 Iron ore, 3 Stick, 4 Light hide	1
	Thorium Mace	Craft: 26 Thorium ore, 3 Stick, 5 Light hide	2
	Cobalt Mace	Craft: 26 Cobalt ore, 3 Stick, 5 Light hide	2
	Adamantite Mace	Craft: 30 Adamantite ore, 3 Stick, 2 Essence of Void	3
Shield	Scrap Shield	Chests / Loot only	1
	Iron Shield	Craft: 25 Iron ore, 6 Stick, 5 Light hide	1
	Adamantite Shield	Craft: 35 Adamantite ore, 10 Light hide, 3 Essence of Void	3
Pickaxe	Crude Pickaxe	Craft: 4 Rubble, 3 Stick, 2 Plant fiber	1

	Iron Pickaxe	Craft: 12 Iron ore, 3 Stick, 2 Light hide	1
	Thorium Pickaxe	Craft: 15 Thorium ore, 3 Stick, 3 Light hide	2
	Cobalt Pickaxe	Craft: 15 Cobalt ore, 3 Stick, 3 Light hide	2
	Adamantite Pickaxe	Craft: 20 Adamantite ore, 3 Stick, 1 Essence of Void	3

Armor:

Armor Part	Material	Craft / Getting (Cost)	Tier
Helm	Copper	Only in Chests / Loot	1
	Iron	Craft: 12 Iron ore, 2 Light hide, 2 bone fragments	1
	Thorium	Craft: 15 Thorium ore, 4 Light hide, 4 bone fragments	2
	Cobalt	Craft: 15 Cobalt ore, 4 Light hide, 4 bone fragments	2
	Adamantite	Craft: 20 Adamantite ore, 6 Light hide, 1 Essence of Void	3
Cuirass	Copper	Only in Chests / Loot	1
	Iron	Craft: 24 Iron ore, 6 Light hide	1
	Thorium	Craft: 30 Thorium ore, 8 Light hide	2

	Cobalt	Craft: 30 Cobalt ore, 8 Light hide	2
	Adamantite	Craft: 40 Adamantite ore, 12 Light hide, 3 Essence of Void	3
Gauntlets	Copper	Only in Chests / Loot	1
	Iron	Craft: 8 Iron ore, 2 Light hide, 4 bone fragments	1
	Thorium	Craft: 10 Thorium ore, 3 Light hide, 6 bone fragments	2
	Cobalt	Craft: 10 Cobalt ore, 3 Light hide, 6 bone fragments	2
	Adamantite	Craft: 14 Adamantite ore, 4 Light hide, 1 Essence of Void	3
Greaves	Copper	Only in Chests / Loot	1
	Iron	Craft: 16 Iron ore, 4 Light hide	1
	Thorium	Craft: 20 Thorium ore, 5 Light hide	2
	Cobalt	Craft: 20 Cobalt ore, 4 Light hide	2
	Adamantite	Craft: 26 Adamantite ore, 8 Light hide, 2 Essence of Void	3
